## Green Notions Generators

CHOOSE YOUR FUEL.  
DIESEL, PROPANE, NATURAL GAS, SOLAR  
FOR YOUR GENERATOR.  
WE BUILT TO YOUR SPECIFICATIONS

Headquartered in Orlando, Florida. Green Notions is a global indoor/outdoor renewable energy company and is principally engaged in the research, design, development, marketing, distribution, integration and sustainment of advanced renewable energy products and services.

**Mission:** Green Notions mission to enable our customers to conserve energy, provide power anyplace-anywhere-anytime and to support ways to reduce the nation' escalating cost of energy..

### Our Values:

- **Innovation:** We identify new products on how well the product's design meets our customer's needs.
- **Flexibility:** We are able to provide a variety of our products in the quantities that customers demand while maintaining high performance.
- **Quality:** We continuously develop technology, processes and equipment to better meet customer's needs.
- **Fair Pricing:** We provide superior value at fair prices to our customers

### What We Do:

We are entrepreneur, renewable energy technology is our focus and helping the future arrive that what we do. We solve the great problems for our customer energy needs. We create the innovative technologies that define eras. While no one knows what's going to change the world next, we're probably already working on it.

## Smart Solar Power Generators Keep Power on for millions

Would you like your business and household going green and Mobile? And limit carbon emissions to protect the environment? Green Notions Smart Solar Power Generators will help you to achieve that goal. Our Solar Power Generators come charged. The charge is stored in a bank of batteries, and available for immediate and easy use when you need it anyplace anytime. Everything plugged into the unit and the outlets will be powered upon loss of power

**Smart Solar Generators are qualify for the 30% Federal Renewable Energy Tax Credit – when used for residential purposes. That's over \$1,000. Use IRS Form 5695. We'll help you with the paperwork.**

Green Notions with our partner has been designing, manufacturing and selling a variety of solar generators. We built these units to order. These generators are **MADE FOR:**

- Apartments, Condos, Office Buildings,
- Home and business Owners Associations
- Protection from power outages, spikes, surges...
- For those living where power may go out for days or weeks.
- In professions that require backup power, ex. Surgeons, Farms, Military and non-Military test range

### Features & Benefits:

- No Gas, No Noise, No Fumes! & Affordable
- Silent, Safe, Portable, & easy to store
- No complicated installations, permits or maintenance
- Fast easy hook up

### Protection Against:

- Financial loss from relocation, food replacement, burst pipes, mold, theft, lost business
- Data loss, damaged computer equipment, disrupted IT operations, idle labor & much more.

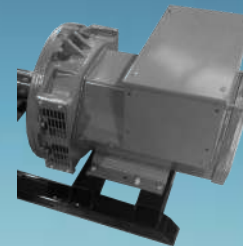

Green Notions - Smart Power Generators March 2016

# Smart Diesel, LP-NG, Marine Generators

Rugged - Reliable - Powerful

PROUDLY MADE IN THE USA

At Green Notions, we value the input of you, the customer. We want to know how you plan on using PDG generators so they can help you choose the right one the first time. That's why PDG custom build every one of our generators to your specs. You tell us what you need and we'll do the rest!

Once you get your new PDG generator, you are part of their family. If there is ever a problem, or simply a question about how to hook something up, PDG customer care are only a phone call away. We promise you won't get a robot on the phone or some guy from half way around the world. You will talk to a real, live person at PDG facility here in the United States. (You can even call just to tell us how awesome our generators are!)

All PDG generators, up to 30 kW single phase, come with a main disconnect breaker installed, a 12 volt battery, an automotive grade muffler, and all fluids installed. PDG test run each generator before it leaves the factory. When you get your generator, all you have to do is add fuel and turn the key!

Green Notions Smart Diesel, LP-NG, and Marine generators and Alternators are engineered, designed, and manufactured by Powerhouse Diesel Generators, are intelligent and the toughest generators around! We recognize the demand for high quality and USA made industrial and residential generators at an affordable price.

1. **PDG Industrial** alternators are setting the industry standard for power
2. **PDG Industrial** alternators use only 100% American Essex® copper, featuring double dipped auxiliary windings
3. **PDG Industrial** alternators offer the best alternator warranty anywhere in the industry. You can rest assured that you will have power when you need it, where you need it.

The engine is the driving force behind the strength of any generator. Knowing that, PDG only use engines from the most respected companies in the business. They build their generators with brands such as Perkins, John Deere, Mitsubishi, Kubota, Isuzu, Yanmar, Deutz, and others.

At PDG, they don't favor one brand over another. Every company has models that perform better than the others in certain kW ranges. That is why PDG don't build using only one brand of engine. This is important in order for us to give you the best product possible.

Ultimately, you pick the brand engine you like and help us build your generator exactly the way you want.

## Standby Power

Emergency power when you need it most! Enjoy the comforts of home while the storm rages on!

[www.green-notions.com](http://www.green-notions.com)

## Off Grid Power

Supply power for your fishing or hunting camp, or even a location that has no access to utilities.

## Marine

Power for boats, docks, and other marine applications.

## Industrial

Remote power for construction, mining, manufacturing, and other industrial applications.

## Motor

Power all of the comforts of home in your Motor-coach or RV.

## Agricultural

Remote power for pumps, irrigation pivots, welders, and even standby power from our PTO gensets.

## Service Trucks

Power source for food trucks, insulation trucks, sewage trucks, water trucks, and more.
